

INTERCOLLEGIATE BROADCASTING SYSTEM

MEMORANDUM

TO: Tom Montgomery - Haverford

Date: 19 March 1947

FROM: Dave Linton - New York

Dear Tom,

Thanks for your note of yesterday. I'm at a loss to understand the call letters. I have checked my file, and the call we are holding for you is W H F V, this being one of the few calls in the WH series which was still available when we checked. Where did you get W H V C ? Is this an error, or did someone make it up?

This is a matter of federal law, and the call letters a station will use are up to the Federal Communications Commission. There are strong indications that the old calls which we have been permitted to use and which duplicate those of non-broadcast stations may soon be withdrawn.

I am having George check to see if W H V C is available, but it is unlikely. There are so few available calls that the chances are against any specific one. In the case of Dickinson college, we recently went through twenty choices without finding one available.

In any event, you should not just start using some call on the air - it's dangerous. First check and get the call assigned to you.

Incidentally, while I sympathise with your desire to use up the old stationery before changing your name, it is not entirely without hazard. You can not, for example, sign contracts in the name of "Station WHAV" since the station of this name in Haverhill Mass. can sue you. They can sue you for almost any representation that you are station WHAV. Similarly, of course, all material in connection with national sale of your station and all national publicity will have to use the new call.

I think the separation pains will be less acute if you make a clean break.

Please let me know about this in a hurry. I'm trying to print a new rate card.

Regards,

Dave

INTERCOLLEGIATE BROADCASTING SYSTEM

MEMORANDUM

TO: Mr. [Name]

FROM: Mr. [Name]

SUBJECT: [Subject]

Date: [Date]

There is a great deal of interest in the new station which is being built at the [Location]. It is a very modern station and will be able to handle a great deal of business. It is a very important station and will be a great asset to the [Organization].
